1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 10, 12-16, 19-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Barroero. Barroero discloses the claimed invention, including an air outlet at an upper end of the storage room 25, causing at least part of the air discharged therefrom to descend along the rear face 20 of the room and into the shelves 30. An inlet is provided at a lower front end of the room.

3. Claims 11, 17, and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
